

# Crypto Cheque

## Blockchain:

### {{Blockchain}}

Use the public address to deposit and verify funds in this cheque. Any digital assets deposited become physically represented by this card until the private keys are exposed.

### Number of Keys:

Single Key: 1 of 1

### Public Address:

{{PubQR}}

{{PubAddress}}  
{{PubKey}}

This card is known as a scratch wallet. It is used to represent a digital asset or funds in the physical world. You can consider assets or funds stored to this wallet "withdrawn" from the blockchain.

### DO NOT ACCEPT IF:

- Part or all of the private key is exposed
- Seal appears to be tampered with
- You can't see all lines around the scratch area
- Authentication app says it's a forgery or the security image doesn't match.

### To Deposit:

Scratch off the surface and use the private key to transfer crypto into your regular wallet.
